Safe Rawhide Alternatives

Did you know rawhides are bleached to get their colour?

Did you know that rawhides often contain glue?

Would you eat something that has been submerged in bleach and with glue on it?

Not only that, but rawhides are largely indigestible for a dog...

Here are some natural alternatives recommended by the Dog Training College...

- Whimzee's
- Yakkers Bars
- Antlers
- Root Chews
- Beef Trachea
- Pizzles
- Beef Tendons
- Pigs & Cows Ears
- Venison Ears
- Braided Lamb
- Fish Skin Jerky
- Sweet Potato Chews
- Buffalo Horns
- Raw Carrots
- Frozen Carrots
- Bully Sticks
- Frozen Celery
